# P RAVITEJA

Flutter Developer | Mobile & Web Application Engineer

+91 9603832514 | ravitejap02529@gmail.com | Andhra Pradesh, India
GitHub: github.com/raviteja112296 | LinkedIn: linkedin.com/in/ravi-raviteja | Portfolio: raviteja-dev.vercel.app

## PROFESSIONAL SUMMARY

Results-driven Flutter Developer with hands-on experience building production-grade mobile and web applications. Independently architected and delivered a complete ride-hailing platform — MokshaRide — featuring real-time GPS tracking, Firebase backend, payment gateway integration, and a React.js admin dashboard. Proficient in end-to-end app development from UI design to cloud deployment.

## TECHNICAL SKILLS

- Flutter & Dart
- Firebase
- Google Maps API
- Payment Gateway
- React.js
- REST APIs
- Git & GitHub
- VS Code & Android Studio
- JAVA

## PROFESSIONAL EXPERIENCE

**Flutter Developer Trainee** — Mokshabani Tech Services Pvt. Ltd.
*Karnataka, India | January 2025 – Present*

- Independently designed and developed MokshaRide — a full ride-hailing platform from scratch
- Built User App & Driver App in Flutter with real-time ride tracking using Google Maps SDK
- Implemented Firebase Firestore streams for live ride matching and driver-passenger sync
- Integrated OTP-based authentication, driver verification, and payment gateway
- Developed React.js admin dashboard for live ride monitoring, analytics, and driver management
- Architected scalable Firestore database schema to handle concurrent ride operations

## PROJECTS

**MokshaRide — Ride Booking Platform** | Flutter, Firebase, Google Maps, React.js, Payment Gateway

*A production-ready ride-hailing ecosystem with real-time tracking, matching, and payments.*

- Complete User App with ride booking, live driver tracking on map, fare calculation and payment
- Driver App with ride accept/decline flow, real-time location broadcast, earnings dashboard
- React Admin Panel for monitoring live rides, managing drivers, and viewing analytics
- Firebase Firestore real-time sync for instant ride status updates across apps

**Ambania2z — Local Service Discovery App**
*Flutter | Firebase | In Progress*

- Building a scalable local service discovery platform with modular Flutter architecture
- Designing intuitive UI/UX using Flutter widgets with clean navigation system

**Online Exam Management System**
*Java | JSP | SQL | HTML/CSS/JavaScript*

- Developed a full-stack web platform for conducting online examinations
- Built frontend with HTML/CSS/JavaScript and backend using Java, JSP, and SQL

## EDUCATION

**B.Tech in Computer Science Engineering**
Mother Theresa Institute of Engineering and Technology | 2021 – 2025 | CGPA: 7.5
